Founded for the cancer community by a cancer survivor

Dear cancer patients, family members and medical providers,

My name is Heather Himelwright. Three years ago, I was diagnosed with breast cancer.

Prior to my diagnosis, I was a successful insurance professional. However, as a cancer patient, I discovered firsthand the complexity of provider networks, health plans, authorizations, deductibles, co-pays and bills. I met people who were overwhelmed and discouraged by the insurance "maze."

Today, I'm thankfully cured and I'm taking the opportunity to put my insurance and my cancer experiences to work for you. I founded Cancer Patients Insurance Advocates with one simple mission: To allow patients to focus their energies on healing, without the worry and stress of navigating insurance issues.

Visit our web site at www.cancerpia.com for more information. And, if you choose to take the next step, it will be my pleasure to join your fight for recovery, and to get you the services and benefits you deserve.

Warmly,

Heather

You take care of healing

----- while we take care of the details.

CPIA helps you understand and maximize medical, disability, long term care, and life insurance benefits.

Medical:

- Explain benefits and processes
- Answer coverage questions
- Resolve billing issues
- Appeal denied claims
- Develop affordable payment plans
- Source appropriate, affordable coverage for cancer survivors

Disability

- Explain benefits and processes
- Help patients file necessary forms to apply for benefits from employer, state and federal sponsored disability
- Ensure correct and timely disability payments
- Source appropriate, affordable coverage for cancer survivors

Long Term Care

- Explain benefits and processes
- Help patients file necessary forms to apply for personal or employer sponsored Long Term Care coverage
- Ensure correct and timely payments are made to patients
- Source appropriate, affordable coverage for cancer survivors

Life Insurance

- Help file necessary forms for death or viatical claim
- Source appropriate, affordable coverage for cancer survivors
